

## **Addendum 1**

### **Request for Proposals Station Management, Camera and Chamber Upgrade Job Number 30-15-IT**

This addendum is issued to provide requested information regarding the estimated cost of the project described in the RFP document:

The city has approximately \$300,000 identified for this project. While the city will consider proposals that exceed that amount of money, city staff hope that a system which meets the city's needs can be found inside of this price range.

Addendum issued on March 26, 2015.
